

ANNUAL REPORT
OF THE
TOWN OFFICERS

TOWN OF CARVER
MASSACHUSETTS
1975

COVER PICTURE

This is the bi-centennial year for our country so we look back in our history to rediscover the values that made us a people and a nation. We would do so in an attempt to become aware of the heritage that is ours, and thus enlarge our vision of what we might become in the future.

The Town of Carver was able to make a significant acquisition this past year by purchasing the Marcus Atwood estate in South Carver. The property is depicted on the cover of our Town Report, and symbolizes what we are saying in regard to the bi-centennial. It is a historical landmark in our community, and we hope to develop it to reflect both our heritage and our future.

Marcus Atwood was one of several early settlers of integrity and honor who helped establish the precepts on which Carver has grown into a town of over 4,400 population. Today, the schools, churches, and town organizations are of a caliber to be respected as among the best in the State of Massachusetts.

It is our trust that we as a community will join the people of our country to re-affirm the precepts that make our nation the land of freedom. It is not only appropriate, but also important, that we re-establish our common covenant of community bringing support to one another, and pride in our togetherness. May the God that directed our forerunners to this place rekindle the adventure of life that now becomes our privilege and responsibility.

THOMAS C. BARHAM II

Mr. Thomas C. Barham II was former Moderator for the Town of Carver. As Moderator, Mr. Barham worked with the Selectmen and Finance Chairmen to fill committee vacancies, and presided over the Annual and Special Town meetings.

Mr. Barham was assistant principal of Silver Lake Regional High School in Kingston, and the operator of a book shop in Carver. He specialized in finding out-of-print books, and rare editions. Mr. Barham graduated from Bridgewater State Teachers College, and held a master's degree from Columbia University.

He was married to Beatric (Ripley) Barham. He had three children.

OLIVER HARJU

Oliver Harju had served the Town of Carver as Alternate Building Inspector, and was in that capacity at the time of his death. Mr. Harju had served in the U. S. Marines during World War II, and as such was a member of the Julian Southworth Post of the American Legion. He was always a part of the military celebrations and honor guards that supported our community. Mr. Harju also assisted with the Carver Old Home Day festivities, and was a member of the Volunteer Fireman's Association.

Mr. Harju was well respected by many in the Carver area especially with his Masons. He was past worshipful master, the Hannah Shaw Chapter, Order of Eastern Star. At the time of the death he was secretary of Mayflower Lodge.

Mr. Harju was married to Helmi (Latvala) Harju, and they had one son, Robert.

LAURA H. HUDSON

Mrs. Laura H. Hudson served the Town of Carver as a public library trustee for several years. Her home at the north end of Savery's Avenue has been one of the favorite landmarks of the community.

Mrs. Hudson was born in Carver on November 17, 1885. She was 88 at the time of her death on September 2, 1974. She was a graduate of Bridgewater Normal School, and was a teacher in Lakeville, Middleboro, and Carver.

FRANCIS H. MERRITT

Francis H. Merritt was active in the Town of Carver most of his life. In his earlier days he organized a boys club, and introduced the Boy Scout program in town. He was both player and manager of the Atwood A. A. baseball team, and was responsible for a few years for having night baseball in Carver when the Atwood A. A. played some of the outstanding teams in the area on Saturday nights.

Mr. Merritt was fire chief and forest warden as well as a special police officer. He had served as town auditor, and a member of the Finance Committee. He recently was awarded by the Carver Old Home Day Association for 25 years as treasurer.

Mr. Merritt was married to Sally (Kaski) Merritt. He had four children.

He was a life member and past commander of Julian M. Southworth Post, American Legion, a member in the Sons of Union Veterans, and the Mayflower Lodge, A. F. and A. M.

Whereas, the burden to raise all these funds fall squarely on the taxpayers of the Town of Carver, and;

Whereas, only a small amount of revenue from the state is received in the Town of Carver for municipal services not related to education, and;

Whereas, the property taxpayers of the Town of Carver can no longer afford to carry the heaviest burden of taxation on the local taxes,

Now Therefore Be It Resolved that the voters of the Town of Carver do hereby call upon their legislators and the other members of the General Court along with the governor to vote in favor of a program of municipal aid and additional educational aid during this legislative session and to redistribute the tax burden through use of the less regressive forms of taxes available at the state level, such as sales and/or income tax.

There being no further business to come before the meeting, and upon motion duly made and seconded, it was unanimously VOTED to adjourn.

PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT

The Plymouth County Mosquito Control Project is pleased to report on its activities during 1975. An important consideration in the implementation of our comprehensive mosquito control program is a concern for the environment as evidenced by the Environmental Protection Agency and Massachusetts Department of Public Health guidelines to which we adhere in each situation.

With cooperation from the Lakeville Encephalitis Field Station, and the Department of Public Health, the Project was able to expand its efforts to control E.E.E. Technical assistance provided by personnel from the Encephalitis Field Station enabled the Project to successfully treat approximately 3,100 acres to combat the season's second brood of *culiseta melanura*, the vector of E.E.E. virus. In late August, the Department of Public Health, with the assistance of our Project, undertook an aerial spray program which covered much of several counties. This aerial spray program was supported by the Encephalitis Field Station which supplied information concerning increasing virus activity in the Hobomock swamp and adjacent areas.

In 1975 the Project devoted a substantial amount of time to water management programs. These programs are ecologically important because they do not make use of pesticides. Our two backhoe units reclaimed 67,420 feet of trench in the past year.

During the spring and summer months the Project maintained and operated five vehicles equipped to spray adult mosquitoes. 41,444 acres were sprayed by vehicle units and 1,700 acres were treated for larvae by mist blower and pump cans. Our personnel also use hand tools to clear drainage pipes and streams of debris and alleviate stagnant water situations. The Project cleared 109,800 feet of streams and trenches by hand and treated 7,000 catch basins.

We wish to thank the various town departments for the cooperation extended to us during 1975 and look forward to a continued good relationship in 1976.

Respectfully submitted,

Arthur L. Westgate
Superintendent

TRUSTEES FOR PLYMOUTH COUNTY COOPERATIVE EXTENSION SERVICE

The Plymouth County Cooperative Extension Service's office is located on High Street, Hanson, and can be reached by calling 293-3541 or 447-5946.

This is repetitious but for the information of new residents, we are the educational arm of the University of Massachusetts and the U.S.D.A. at the county level. This is where the name "Cooperative Extension" is derived.

We have many and varied educational programs.

Free bulletins are on display at our office on lawn care, gardening, nutrition, home canning and freezing, to name just a few. If you pass our office on your travels, stop and visit us.

The number of soil samples tested continues to increase each year which is a free service to the Plymouth County residents. This year, with more gardeners, our agents were swamped with soil samples.

With more food production and preservation by home gardeners, our Home Economists are available for advice. Citizens are encouraged to bring to the attention of their Town Director any suggestions to improve our services.

Plymouth County continues to have the most active 4-H Program in Massachusetts. Increased enrollment continues in our new Urban 4-H program. 4-H has become more than just "cows and cookies" and varied programs are available for all young people.

Through our Nutrition Program in Brockton we have made available to every town school system "Mulligan Stew" film, an excellent source of nutrition lessons for young people. Our Life and Earth 4-H Science Projects such as Embryology and Ocean Science are being made available to all Plymouth County's School Systems. We have periodic leader training sessions for the teacher.

In addition to our regular staff, we have five Regional Community Development Specialists who work closely with all the towns on varied projects and are available for assistance to all towns.

Our Board of Trustee members are:

Mr. Gilbert Blackledge, Chairman, Whitman

Mr. Fred Freidenfeld, Vice-Chairman, Middleboro

Mrs. Sally Carver, Secretary, Marshfield

Mr. Edward Gawle, Brockton

Mrs. Eileen Rawson, Duxbury

Mr. Howard Hayward, West Bridgewater

Mr. Robert Haviland, Hingham

Mr. Phillip Gibbs, West Wareham

Mr. Gerard Burke, County Commissioner Edgar W. Spear, Director

REPORT OF THE BOARD OF LIBRARY TRUSTEES

This has been a busy year for the library, welcoming new librarian Judith Leeper in May. She came to us with three years of experience in North Kingstown, Rhode Island, as a school librarian. She received her Bachelor of Science degree in English and Library Science from Northwest Missouri State University and has done graduate level work at Rhode Island College.

The Trustees have welcomed three new members: Patricia Weston, Erik Ekholm, and Jacqueline Saunders. Upon her resignation, Sally Merritt was presented a Bible for her many years of faithful service. Marjorie Griffith also resigned after many years and the Trustees presented her a plant. Arne Erickson also submitted his resignation during the year.

Patrons have enjoyed U.S.D.A. Extension Service programs; film programs for children, adults, and senior citizens; the weekly storyhour program coordinated by Kay Furman; the talking books; and the Yankee Doodle summer program which was started last summer for elementary-age children. During July and August approximately 85 children participated in twice-weekly activity sessions which were coordinated with a reading program.

The Friends of the Carver Public Library has been reorganized with many ambitious ideas for expanding services to the community. Since their reorganization in September they have had a book sale and children's Christmas party and are sponsoring a pattern and coupon swap.

A collection of materials dealing with cranberries has been established as well as a collection of college catalogs and telephone books from communities in this area.

Special thanks goes to the Garden Club for their continual decoration of the library, the Girl Scouts for their decoration of the children's corner, the 4-H for the planting of the nursery bed, the Historical Commission and the Historical Society for their Old Home Day display about early Carver iron products and the industry, and the many people who have donated books throughout the year.

The Trustees have completed the By-Laws, Library Policy, and Library Rules and Regulations.

Staff members during the year were:

Judith Leeper, Librarian
Lynn Vaughan, Technician
Concha Jarvio, Aide
Anne Marie Allman, Substitute
Cheryl Cook, Page (Youth Program)
Derrine Wood, Page (Youth Program)
Joseph Fernandes, Page (Youth Program)

REPORT OF THE BOARD OF HEALTH

The Board of Health underwent major personnel changes during the year in that it had two new members out of three join it. Mr. George Hoyt was elected for a three-year term to replace Mrs. Clair Simmons. Mrs. Mary Waters resigned and was replaced by Mr. Dwight Cooney.

All percolation or test holes, new wells and sewage disposal systems have been inspected by members of the Board without the aid of a part-time Health Agent. By eliminating the necessity for hiring a Health Agent for inspections the Board recognized substantial savings for the Town.

Budgetary reductions at State level caused the Board to discontinue the program of testing water from our local bathing beaches. In addition, the State has requested that the Board now conduct Health and Sanitary inspections of Nursing Homes and Migrant Labor Camps in the Town.

Because of increased workload and the interaction of functions, the Public Health Nurse's office was relocated from the Governor John Carver School to the Board of Health office in the Town Hall. This move has facilitated a much closer coordinated effort between the Board of Health and the Public Health Nurse. The Board continued to sponsor the flu, blood pressure and rabies clinics. In addition, this year we were able to provide for a Dental Survey of the students at the Governor John Carver School. The survey was conducted free of charge to the Town by Dr. Irwin Lakin.

In closing, we would like to thank the Board of Selectmen for the courteous and fine support and cooperation that they have rendered the Board throughout this reporting period.

Respectfully submitted,

Charles E. Erwin, Chairman
George Hoyt
Dwight Cooney

REPORT OF THE PUBLIC HEALTH NURSE

To the Carver Public Health Nurse Committee

Mr. Charles Erwin, Chairman

Gentlemen:

For the year 1975 the Public Health Nurse wishes to report that the

nurse made a total of 948 home visits. These visits are broken down as follows:

Medical	746
Surgical	106
Child Health Guidance	22
Mental Health Guidance	40
Adult Health Guidance	8
School Transportation	25
Off-Duty Calls	17

Communicable Diseases Reported:

Mumps	9
Strep	32
Chicken Pox	46
Meningitis Influenza	1

During 1975 there has been a dramatic increase in home visits. The scope and role of the Public Health Nurse has changed significantly so that comprehensive health care could be given. The health needs in Carver have risen and I feel this is just a start to even greater needs.

Throughout the year 1975 our Easter Seal Rehabilitation services, such as occupational therapy, physical therapy, speech therapy and social services have been utilized 100% more than in the past years. Again this year utilization of our contract with Greater Brockton Homemaker Services, Inc., has shown a marked increase, being of great benefit to the Carver residents for whom they cared.

The scope of community health programs is changing and broadening with increasing interest in all programs. Preschool immunization, lead screening, monthly blood pressure clinics, oral cancer clinic and flu clinic attendance reflects this interest.

I wish to thank the Carver Public Health Nurse Committee and the Public Health Nurse Advisory Committee for their assistance and implementation in meeting the growing demands of our community's health needs.

It has been a most rewarding year for me, both professionally and personally, and the year ahead promises to be an even more challenging one to those involved in Carver's Community health care.

Respectfully submitted,

Loretta M. Look, R.N.

REPORT OF THE DEPARTMENT OF PUBLIC WORKS

Honorable Board of Selectmen

Town Hall

Carver, Mass. 02330

Gentlemen:

The Board of Public Works presents the report of its activities for calendar 1975.

Due to the warm winter, construction was started on Tremont Street in February. A large culvert was installed under the road to carry water from Little Pond to Sampson's Brook. Drainage was then installed in the early spring. Reconstruction was later completed as far as Cranberry Road.

The winter's sand was swept up and all catch basins in the town were cleaned.

After the Town voted to accept Sec. 6H of Chapter 40 allowing money to be spent on Private Roads open to the public for six years, work was performed on the following: Crystal Lake Drive, Doreen Way, Bunny's Road, Federal Furnace Road, Meeting House Road, Circuit Drive, Mills Road, Pine City Road. These roads were graveled, graded and shaped. Crystal Lake Drive was then penetrated and sealed since it carries such a heavy traffic load.

Using funds from Chapter 825, a seal coat of oil was applied to Purchase Street, Pleasant Street, Plymouth Street, Cranberry Road, Meadow Street and White Pine Lane. This required \$19,120.50 due to the increased cost of oil.

Chapter 497 (gas tax) money was used to install drainage on the following streets: Fosdick Road, Forest Street, West Street, Meadow Street, Gates Street and Plymouth Street. A culvert was installed on France Street.

The usual seasonal maintenance of Parks and Cemeteries was performed. Abuses of Shurtleff Park required that a curfew be adopted in order to protect public property.

Type I hot mix asphalt was laid on North Main Street and Plymouth Street (Route 44). Chapter 1140, Section 20 bond issue money was used for this work.

A new tractor-loader with a backhoe attachment and a roadside mowing attachment was added to the complement of machinery owned by the department. All town equipment was thoroughly maintained and regularly serviced throughout the year.

The crew cut brush on several streets.

There were 21 funerals during the year.

Routine maintenance and special calls for work were handled in the course of ordinary business. The men responded to help at all hours of the day and night to assist where needed throughout the town. The Board commends them for their good work.

Respectfully submitted,

REPORT OF THE VETERANS' SERVICES

Honorable Board of Selectmen

Carver, Massachusetts

Gentlemen:

During the year 1975, the Veterans' Services experienced active participation in the Comprehensive Employment Act (C.E.T.A.). This federal program is geared to relieve the unemployment problems and improve the economy. Through this agency, many unemployed veterans receiving veterans' benefits have secured meaningful jobs and training.

Increments in Social Security Benefits, V. A. Compensations, Pensions and extension of Unemployment Compensations have been responsible in reducing the Carver Veterans' Service payroll which has resulted in savings of tax dollars.

Continuance of referrals in education benefits, housing loans, job opportunities and hospitalization is being offered by the Agent.

The "Vietnam Era" officially ended May 7, 1975. Registration for Selective Service has been temporarily discontinued until some date in 1976. All recently discharged veterans are urged to register your DD214 discharged form with your Agent. It is an important document and should be recorded for future needs.

The Commonwealth of Massachusetts Veterans' Services reimburse the town fifty percent of all monies spent on veterans' benefits. However, the Agent is accountable to the state for proper authorization under the guidelines of the General Laws Chapter 115 of the Directives of the Commonwealth of Mass. Dept. of Veterans' Services before the town is compensated. This procedure requires your Agent is charged by law of making periodic investigations of the necessities and qualifications of any claimant so as to prevent payments of benefits contrary to the provisions of law. Investigations should be directed toward determining the eligibility and specific needs of the applicant and his ability to provide for these needs in the light of his circumstances. It also commands direct human relations, compassion and understanding to physical and verbal behavior which entails all the human resources.

The cooperation of the Offices of the Board of Selectmen, Town Clerk/Treasurer and Assessors is greatly appreciated.

I hope to be able by the Grace of God to continue to serve you in the coming year.

Services performed in education benefits, hospitalization, burial, housing, mortgage, rehabilitation, V.A. Compensations & Pensions, Social Security, Selective Service and C.E.T.A.:

- 112 veterans and/or their dependents
- 50 recipients of benefits
- 52 logged telephone calls for services
- 22 house calls (visits)
- 35 calls received at home and services performed
- 12 registered for selective service
- 8 recorded discharges
- 15 veterans seeking assistance in filling out forms and
procuring service documents
- 1 change of discharge request
- 3 food orders
- 3 widows served

Recovery of \$894.12 from a (W.C.) Workmen's Compensation and

REPORT OF THE OFFICE OF PUBLIC PROSECUTOR

To the Honorable Board of Selectmen

Town of Carver

Gentlemen:

Once again, our report indicates that, during the past year, we experienced a continued increase in the number of crimes being committed in the five-town area served by this office. Not only has the number of criminal complaints filed before the court risen appreciably, we have noted that the types of crimes being committed are greater in severity than in prior years. The total number of criminal complaints processed by this office for 1975 comes to a total of 10,411.

To assist in the handling of these cases, the Court has had to resort to utilizing double trial sessions and, as a result, I have requested and received the assistance of the Plymouth County District Attorney's Office, on periodic occasions to help in the prosecution.

As in prior years, this office has continued to be of service to your local Boards of Health, Tax Collector, and other various local officials, who were in need of advice and assistance in regards to the enforcement of regulations and statutes and the collection of certain delinquent accounts.

There is a hopeful sign in the breaking of ground for the erection of the new Fourth District Court House on Route 28 in West Wareham, as when completed, the new Court House will alleviate many of the problems which have been encountered due to the increase in the number of criminal complaints being filed with the Court.

SOUTHEASTERN REGIONAL PLANNING AND ECONOMIC DEVELOPMENT DISTRICT

To: Carver Selectmen
From: Dave Knight

January 16, 1975

During 1975 Carver continued to participate, along with 29 other Southeastern Massachusetts cities and towns as a member of the Southeastern Regional Planning and Economic Development District. SRPEDD is one of 13 regional planning agencies in Massachusetts and was organized in 1956.

The district is governed by a commission consisting of an appointee of the Board of Selectmen and a member of the Planning Board for each member community, and six minority and low income representatives.

Carver's Commission member is Mr. David G. Knight, representing the Board of Selectmen; the Planning Board has not appointed a member.

SRPEDD staff, under the guidance of the Commission and Committees, prepares advisory regional plans on such subjects as land use, transportation, solid waste, water supply, wastewater treatment, etc., as required and funded by State and Federal Government. Each community can also receive municipal assistance at no cost beyond its per capita assessment. This can include such areas as zoning, planning, flood insurance, Community Development Grant applications, etc.

During 1975 SRPEDD assisted the Town with help in preparing a flood insurance program application (entered program 7/75), and with assistance in preparing a Community Development grant application (Town received \$43,200).

As the responsibilities and problems of communities become increasingly complex, it is essential to have a mechanism like SRPEDD to provide assistance in meeting new regional demands and to help in locating new opportunities for cooperation among area communities.

REPORT OF THE CARVER HISTORICAL AND BICENTENNIAL COMMISSIONS

The Carver Historical Commission has been adding to its historical collection during the year. A large contribution of a variety of articles of great historical value was given to the Commission from the Estate of Mrs. Laura Hudson who resided in Carver and also taught school here for many years.

Also, Francis A. Merritt donated several display cases which are in the Carver Public Library at present until a permanent "home" is located.

The future of the Historical Commission's collection is unknown as the two corner sections at the further end of the building were given for the Commission's use until a permanent museum is available. They were given in 1972, at the suggestion of the Library Building Committee, by the Board of Public Library Trustees, but have now been repossessed by the Trustees.

Recently an offer was made to the Commission to purchase the Bates Pond School House which is the only primary and oldest school in Carver. Its location has been changed twice.

The Bicentennial Commission which has the same membership as the Historical Commission, has been meeting jointly. The Bicentennial activities close in November 1976.

Postcards displaying pictures of Carver have been sold in local stores and in the surrounding areas. Also, a Betsy Ross flag was presented to the Town and accepted by the Bicentennial Commission from the Carver Veterans Council.

A grant of \$1,200 was received from the State Bicentennial and Federal Funds for the restoration of the Revolutionary Training Green in North Carver, and more familiarly known as Lakenham Green. Also, plans are underway for a Parade and Family Day in Carver on June 26, 1976, with the assistance of the Legion, Veterans of Foreign Wars and Sons of Veterans Posts.

BICENTENNIAL COMMISSION REPORT

The Bicentennial Commission, with the assistance of other organizations and individuals, has worked on several projects during the year.

The Restoration of Lakenham Green, financed by a matching grant of twelve hundred dollars from the Mass. Bicentennial Commission, has progressed slowly but steadily toward completion. A new brick walk has been set, a flag pole erected, the watering trough painted, new rails painted and grass seed sown. Remaining for completion are well work, installation of new and salvaged rails and placing of a properly inscribed monument.

The Bicentennial Parade and Family Day will be held June 26, 1976, with a rain date of June 27. The Commission is being assisted by the veteran organizations and town officials who have offered both official and personal cooperation. The budget is two thousand dollars and all effort is being made to remain within this budget and yet provide a memorable day for our town.

During the year the traffic islands were planted with red, white and blue flowers by the Carver Garden Club.

An "Iron" display with charts and maps was exhibited at the library on Old Home Day and several days thereafter. Henry Shaw, Frederick Eayres and Austin Ward must be complimented for this project.

The Bicentennial Flag, cared for by the School Department, has been faithfully flown at the Gov. John Carver School every school day since it was presented on Flag Day 1974, and the Betsy Ross Flag, presented to the Commission by our Veteran Organizations on Flag Day 1975, flies at the Town Hall.

Carver is registered among the first 200 Bicentennial Communities in the U. S. and will continue to justify the high position.

REPORT OF THE SOUTH SHORE COMMUNITY ACTION COUNCIL, INC. (SSCAC)

South Shore Community Action Council, Inc., is a nonprofit, Federal, State, local and privately funded anti-poverty agency, operating through Federal mandate in the town of Carver, Cohasset, Duxbury, Hanover, Hull, Kingston, Marshfield, Norwell, Pembroke, Plymouth, Plympton, and Scituate. SSCAC provides social services, acts as liaison to State Social Service offices, functions as a clearing house of referral information, attempts to organize residents around relevant issues, and generally

functions as an advocate for low income residents of the twelve (12) town council area.

The offices of SSCAC are located at 17 Court St., (rear), Plymouth, Mass., and the "Old Fire Station" at 27 Brook St., Scituate. These offices plus increased personnel, brought in through the CETA Program have enabled SSCAC to expand the level of services being provided.

The overall economic climate of 1975 produced a demanding year for SSCAC. The unemployment statistics from the Division of Employment Security for the South Shore are among the highest in the State, and everyone is feeling the effects of the inflationary spiral. And this, coupled with the tremendous budgetary cutbacks in social services will increase the demand on our services. With the generous support of the Council Area Towns, SSCAC will continue to provide assistance to eligible South Shore residents, and attempt to develop new and innovative solutions to meet the area's social problems.

REPORT OF THE CARVER INDUSTRIAL AND DEVELOPMENT COMMISSION

“AN OVERVIEW”

The Carver Industrial and Development Commission re-organized in September of 1974 and has since charged itself with the responsibility of promoting understanding, cooperation and help within our appointed tasks from the Board of Selectmen. It is our sincere hope that this overview will briefly describe how we have been operating plus an interpretation of our role as it relates to Carver's future.

Please note in the following how Carver compares in some of the vital economic and social areas as to the rest of the District (SRPEDD Southeastern Regional Planning & Economic Development District, 29 cities & towns).

- **Population Growth**—77% in last 5 years. 2,420 in 1970 to 4,280 in 1975.) This is the greatest increase in SRPEDD and (17) seventeen times the state average of 4.5%.
- **Unemployment**—Significantly the highest rate in the region. 26% (DES)—Div. Empl. Securities Oct. 1975. This is 2 times the regional average.
- **A substantial number of economically distressed low-income families and elderly retired** living in sub-standard housing. 1970 Census Data.
- **A Rapidly Increasing Tax Rate**—Up 26% in last year—up 63% since 1970. School taxes represent 3/4 of the total tax dollar. Estimated further increases coming.
- A continual decline in the profitability and tax contribution of our major business, the Cranberry Industry.

As these pressing facts continue to confront us, the Carver Industrial and Development Commission is dealing with an overall objective of encouraging the right kind of industry to locate in Carver:

- To broaden the tax base.
- To create JOBS for Carver residents and their children, so that they can hope to find good jobs right here at home.
- To bring a new and increasing flow of wages into our community, stores, services, churches and generally promote the well-being of our town.

We have no pre-conceived idea as to what the right kind of industry is, but we do know that we must direct ourselves to fulfilling the needs of Carver by learning all about zoning, land available, transportation and highways, nature and skill of local labor force, schools, planning board, water and sewage probabilities, fire and police protection and other

important facts and attitudes about Carver that a potential industrial client will be seeking the right answers. Therefore, the IDC by mere need has been firm in its support for the much needed Master Plan presently underway.

Just as concerned as we are on industrial development per se, the Commission has also effectively been dealing with the social, human and environmental conditions of the town. Therefore, while actively seeking potential industry for the town to support the financial and economic needs, we are equally concerned that Carver develops into and remains the kind of healthy and happy residential community in which the right kind of industry will *want* to locate.

We realized long ago that to accomplish our goal we must seek out support from Federal and State assistance programs for which Carver is eligible. As a result, we are continuing to promote local and regional enthusiasm and support for our programs. This is where you citizens of Carver can help us most; we need your enthusiastic support and energy not only at Town Meetings but throughout the year to help us help all of us.

Summary

Through the efforts of the members of the Carver IDC and sincere support from the Selectmen, other boards and citizens, the Commission has had a most successful growth period. Its members serve on many area boards, task forces, sub-area committees to better relate back to our overall community objective. The Carver Industrial and Development Commission has influenced the funding of \$43,220.00 from HUD to purchase property for a Community Center; assisted in the preparation of the Town's Flood Insurance Program; has been a leader in the implementation of local funds to begin a Master Plan; has been instrumental in getting a Town Planner/Conservationist from CETA; assisted in the preparation of the funded State Bicentennial Grant, \$1,200.00 to restore Lakenham Green; joined the Plymouth Development Council in a matching funds program which has allowed us to build an Industrial Development Sign "Carver Welcomes Industry" and other promotional work; introduced the future potential of an oil refinery location study for Carver; plus, through the efforts of the IDC, a Business Association is being formed and should be operating early in the Spring of 1976.

New funding efforts have been initiated—to complete the Community Center concept a request of \$97,500.00 to HUD. The Dept. of Agriculture will be requested to fund upwards to \$100,000.00 to purchase land for the Town of Carver for the primary purpose of industrial development.

Officials from Federal, State and Regional, and Local levels have begun to communicate with the IDC on many of its programs.

Much thanks and appreciation is extended to Mr. Norman Moore, Mass. Dept. of Commerce and Development; Mr. Brooks Kelly, Plymouth County Development Council; Mr. Rudy DiSilva, Mr. Alex Zaleski, of

SRPEDD and many others at SRPEDD; and finally, the members of the Carver IDC who have worked hard on many projects and committee functions throughout the community and surrounding area.

May I also extend an invitation for those who might consider becoming a member of the IDC. If you are interested, please contact the Selectmen for proper review and future appointment. Let's all work earnestly to make Carver a better place to live, work and play.

Respectfully submitted,

CARVER SCHOOL DEPARTMENT

We were most pleased this year to have the completed addition made ready for use. Sincere thanks go to Mr. Look and the members of the Building Committee for an effort appreciated by all. It has been a great pleasure to have had so many visitors, all of whom have expressed delight in this new facility.

It is difficult for some to believe that our Town has grown so rapidly. That we have made full use of the added eighteen classrooms is very supportive evidence of this phenomenon.

Plans have begun to crystalize within the Plymouth-Carver Regional District School Committee. They will soon be coming before you for support for much needed secondary school facilities.

We were informed last summer that the emphasis on Title I had shifted away from summer programs. We are satisfied within our own experience that the greatest advantages have come from our school year remedial efforts of this program. This will return the responsibility for any summer efforts to the Town. A study of just how much we can do in this regard is presently underway.

Once again, we have tried to limit our statement within the Town Report. You have here only those statements required by statute. Complete reports submitted by the Administrators of the Town School and of the Regional District are available in the Public Library, the Principal's office at the Governor John Carver School, and the central office of the School Department.

Mr. Erwin K. Washburn, Chairman
F. Edward Nicolas, Superintendent of Schools

REPORT OF THE SUPERINTENDENT - DIRECTOR

To the Members of the Regional School District Committee and the Residents of the Towns of Acushnet, Carver, Mattapoisett and Rochester.

I herewith submit the annual report of the Superintendent-Director for this school district. The summary report of the District Treasurer is attached as related to the year 1975. An enrollment table and a personnel directory complete the record.

The committee membership and organization for the year is as listed on the opening pages of this report.

Schools today, and particularly secondary vocational technical high schools, face many more problems both educational and social in origin than ever before. The public, through its duly appointed representatives to the school committee have no choice but to try to solve them. The year 1975 has been a year of momentous accomplishment for the school district. The solutions to the numerous problems have come through the collective effort of many people. The Committee made correct decisions and were optimistic enough to predict and see realized, a September 1975 school opening date, by any measure, the most significant step taken by the citizens of the four towns, through their school district and the most important action to be recorded on the permanent record for 1975.

Regional District Committee and sub-committee activities throughout the year continued at a demanding pace. A tremendous amount of work was necessary on the part of the building sub-committee, especially as the opening of Old Colony drew near. The personnel sub-committee was directed to help gather together an administrative, teaching, cafeteria, and maintenance staff. Last, but by no means least, the equipment and color sub-committees expended significant effort over a long period of time in order to help create the excellent facility we now have. These activities culminated in Old Colony's very successful opening on September 26, 1975, on which date the first freshmen and sophomore class (along with six junior transfer students) entered the finest secondary level vocational technical school in this area. After nearly a full half-year of operation, we

are proud and gratified with the excellent results achieved. We feel well rewarded for the years of planning and development which Old Colony required.

The following items represent a listing of events worthy of mention in this report.

Throughout the winter months of 1975, the administration continued its work with teachers and advisors in developing specifications and equipment layouts. All shop, classroom and office equipment went out to bid through the efforts of Mr. Francis X. Flynn, Business Manager-Treasurer, and the Superintendent-Director and office staff.

In January and February all schools in the member towns were visited by the Director of Pupil Personnel Services in order to give information to eighth and ninth grade students of courses offered at the Old Colony Regional Vocational Technical High School. Applications were distributed with students requested to indicate their shop choices. Specially designed information forms were given to each school to be completed for each student who planned to make application to Old Colony.

At a later date, applicants from the member towns were given a series of aptitude tests involving verbal reasoning, numerical ability, mechanical ability, abstract reasoning and spatial relations. Scores on the above tests, records and information sheet provided by the sending school were evaluated in order to provide a profile of each candidate's characteristics. Each applicant's profile was recorded in a compilation sheet which served to identify the most qualified students in each town. Every effort was made to give students their course preference in an exploratory program, to distribute the courses as equally as possible among the towns, and to select each student for the courses in which he/she appeared to have the best chance for success.

February saw the acquisition of the District's first vehicle. A stake body truck award went to Ashley Ford of New Bedford and during that same month, Mr. William Hubbard (Mattapoisett) officially took over as Old Colony's Clerk of the Works. Mr. Hubbard served in that capacity as well as our Surplus Equipment Coordinator throughout Old Colony's construction phase.

In March, the towns authorized the district to borrow an additional \$750,000. to complete the equipping of the building. The amount covered a \$525,000. federal grant which would be applied against the bond issue when received. During this time frame, Old Colony's first teachers were appointed.

At the District Committee's reorganizational meeting held May 7, 1975, Mr. Erwin K. Washburn (Carver) was elected Chairman, Mr. Bernard F. Talty (Mattapoisett) Vice-Chairman, Mrs. Blanche B. Perry (Mattapoisett) Secretary and Mr. Francis X. Flynn, Treasurer. At a subsequent meeting, Mr. William Hubbard was appointed to the position of Plant Supervisor;

Mrs. Althea Fearing, Cook-Manager; and Miss Carol Taylor, Assistant Cook.

There were four (4) resignations during 1975:

Miss Mary Riordan — Director of Pupil Personnel

Miss Nancy Fuller — Clerk-Typist

Miss Susan Smith — Receptionist

Mrs. Alice Soares — Clerk-Typist

In August, and through the cooperation of the District Committee, a formal announcement was made with regard to the position of Assistant Superintendent-Director. When all preliminary applications were gathered together and reviewed, the Superintendent-Director submitted the names of three (3) qualified applicants for the personnel sub-committee to interview and consider recommendation to the district committee for election to the position. The Committee elected Mrs. Margaret E. Cameron (Rochester).

Mrs. Cameron assumed her duties immediately following her election, and, with the position filled, we expect to make efforts in development of curriculum, supervision of instruction and added assistance to curriculum for special projects.

September 1975 will live forever in the hearts of those who were directly and indirectly involved with the Old Colony project. And this report would not be complete without mentioning the fact that regional committee members have given of themselves without limit to insure the towns receive full value for the investment made. It is not a simple matter today to build a public building and have it move along to a successful conclusion. It is only with constant checking, questioning, investigating and comparing that these things are done. The towns are very much indebted to the faithful few who have invested countless hours of their personal time to carry the project through a successful conclusion. And, before moving on to some other topic, I want to add here that Mr. Francis Flynn, Business Manager-Treasurer; Mr. William Hubbard, Clerk of the Works; Mrs. Nina LaBelle, Secretary; Mrs. Claire Racine, Bookkeeper; Mrs. Margaret Cameron, Assistant Superintendent-Director and the entire staff have done an exceptionally fine job in helping to open a new school not only in adjusting to a new building but a school with an entirely fresh philosophy of vocational education. It is a successful operation now and with the refinements which are certain to appear in the program after the initial year of organization, it will become an outstanding school, one in which we can all take justifiable pride.

Maintenance

The school maintenance program at Old Colony is a complex operation and has required the constant attention and work of the people involved. It is only through the hard work of the maintenance staff that the program

has done as well as it has in our first four (4) months of operation. I want to emphasize that any success that accrues to the maintenance program is due to the management of Mr. William Hubbard and the hard work and dedication of the custodial staff.

Special Needs Collaborative

The Old Colony District is in partnership with the Southeastern Regional School District and Bristol-Plymouth Regional School District in a *Special Needs Collaborative*. The Collaborative was awarded a \$22,000.00 operational grant for the fiscal period 1975-76. Old Colony effectively utilizes the services of a speech therapist and a school psychologist on a weekly basis. The District will continue collaborative membership in FY 1977 and, in doing so, fulfilling a major portion of its responsibilities under Chapter 766.

Old Colony Vocational Educators Association

Collective Bargaining is a reality and it is here to stay. At the present time the teaching staff is represented by the Old Colony Vocational Educators Association. The staff formed their own group without outside affiliation. Collective Bargaining, particularly in the small towns is a difficult subject and there is no doubt that it has a direct bearing on the salary levels which are maintained. But the fact remains that the state legislature enacted the law and gave municipal employees the opportunity to use it. Hence it follows that the bargaining procedure, both locally and on a statewide application will have an immediate result in wage levels, both for the instructional and non-instructional personnel. The school committee represented themselves in discussion with Association representatives and we can truthfully say that our sessions with teachers have been mutually beneficial. The 1976-1977 salary schedule and policies governing teacher working conditions, was readily handled between teacher representatives and members of the committee. It was presented in good taste, without excessive and unreasonable demands, and was quickly and easily agreed upon by both parties. This proposal will become effective September 1, 1976.

School Year

Following a most successful Dedication and Open House program on November 23, the Committee requested a waiver from the Massachusetts State Board of Education; said waiver would permit Old Colony to operate thirty-three (33) hours less than the required minimum of one thousand eighty (1,080) clock hours. The Board of Education voted to approve the waiver and on January 5, Old Colony increased the school day by thirty (30) minutes and will continue to operate on such a basis until one thousand forty-seven (1,047) clock hours have been completed.

Focus for 1976

In 1976 we intend, of course, to sustain our efforts to improve the quality of vocational education in Old Colony. We will proceed on all fronts but some of the areas upon which we will focus follow.

Planning for the establishment of cooperative programs in occupational areas. Students participating in a cooperative training program attend school during their academic cycle and gain actual "on-site training" at related jobs during their shop cycle.

Continue the design, development and implementation of the vocational technical curriculum.

The recognition of adult education needs within the District, as an important part of Old Colony's system, must develop into a curriculum serving a broad range of our townspeople's interests.

In addition to the traditional evening practical arts courses and evening trade extension programs, I believe that in order to broaden the scope of adult education, it is necessary to include a wide variety of classes and services. A limited, stereotyped program cannot adequately meet the varied and changing interests of residents. Increasing attention to the educational opportunities for specific age, occupational and organizational groups must be given. The problems Acushnet, Carver, Mattapoisett and Rochester people face are usually specific. The kind of help they want through adult education must be intimately connected with their needs. Young adults, senior citizens, varied educational background groups, parents, homemakers, factory and professional workers and others, need courses tailored to fit their particular problems. If a district-wide adult education program is to develop, it will be accomplished only with the cooperation of men and women who are keenly interested in this area . . . to these people, we sincerely extend an invitation to share in this important civic responsibility of determining how we can best serve district needs in vocational technical school adult education.

We will be doing other things next year but these suffice to give you some indication of our plans.

On the whole, the year 1975 has been an intensive one. The search for solutions to the many problems has been on-going and, fortunately, it has been possible to reach a satisfactory conclusion. We look forward to next year as one in which we can find additional answers. Space does not permit listing the names of all those who so generously gave of themselves and their time to help develop Old Colony. We have every reason to commend them for a civic duty well done. The administration of Old Colony, enrolling two hundred seventy-six (276) students in all programs, must necessarily depend upon the cooperative efforts of many persons. An atmosphere of understanding and cooperation on the part of the Regional School District Committee, intelligent, inspired teaching, prudent planning, many hours of unselfish work on the part of the staff, are all

committed to one purpose, namely, to help Old Colony students grow. That so many are truly committed to this one purpose, constitute the chief asset of this district. And finally, no one knows of the many hours a committeeperson invests in his service on the school committee unless he is in a position to observe closely. We are profoundly grateful for the time and patience which all committee members have spent working at their tasks.

Respectfully submitted
